

Case # 21

This case represented within small group of workshop by the individual who wished to work on own unfinished business and make a decision about it. Duration of workshop was four hours.

Starting within starting with a beautiful fruit tree in which fruits are representing loved ones and clients goal and then another strong lines with uncertain direction and using pastel making some invisible shapes in colour then a figure emerges that is very neat and gave careful attention to it then another figure emerges which is done with ordinary pencil and not given careful attention to it. These figures are belongs the individuals who are involving in client's life. Then beside the second figure is anger showing as clients described. The last one is very colourful circle and client is the centre of colourful circle.

Five of these drawing were instructed to have attention to the feeling, sensing at the moment about focus of clients attention. The last one instructed to draw sum of those feeling, sensing along with conclusion of those sensed and felt sensation, desire, need and wants.
