

Case # 22

These art works are done by mother, son and daughter within 15 sessions. Mom was around 35 years, son was around 9 years and daughter was around 6 years old. Explanation and expression of these drawings are done by each individual. I will describe from left to right as they felt, sensed and believed in that moment about their life, about themselves and about other member.

First drawing is done by mother, she said: "I do not like my son because of his behavior and myself that I do not know what to do or I am constantly asking myself what I have done wrong".

Second drawing is belonging to son, he drew a house, showing his dad and mom and himself and sister in their room. Quite expression he used to describe parents behavior and his thought about house and surroundings.

Third drawing is belonging to son; he drew birthday party in his class by the teacher and liked it very much.

Fourth one is again done by son about his class and teacher of him, the expression is all about his behavior in class, his relation with his teacher, being bad example by his teacher and so on.

Fifth one is again done by son in which is visual description of his states of listening, being bored, angry, disliking self and liking self.

Sixth one is his desire and wants

Seventh drawing is belonging to her 6 years old daughter. She drew herself a tall and happy.

Eights drawing is belonging to daughter in which drawing gestalt as a red Teddy bear.

Last drawing is belong to Mother.
