

## Case12

17 years male's father concern about his son academic progress very seriously and projecting such concern on him too.

First drawing of this young man showing his concerns and uncertainty in regard to his academic future and its process.

In the second one, he is showing his desire as he described as an artist. In both picture you are viewing that colours are very fade and uncertainty is obvious in both drawing.

In addition, he is describing his uncertainty with contradicting his drawing with environmental condition. As he described that he is at the beach and drawing, and there is lantern hanging over the drawing board. When I asked what time is while you are beach and drawing he simply answered, "Its day time"
